

For Immediate Release

## KnowledgeLake Named to Inc. 5000 List of Fastest Growing Private Companies in America

**St. Louis, August, 2010** — KnowledgeLake, Inc., a leading provider of [document imaging and capture](#) technologies for Microsoft SharePoint [Enterprise Content Management](#) (ECM) solutions, today announced that it has been named to the Inc. 5000 List of Fastest Growing Private Companies in America.

“We are honored and excited to be recognized by Inc. Magazine as one of the nation’s top entrepreneurial companies,” said Ron Cameron, President and co-founder of KnowledgeLake, Inc. “The successful implementation of our strategic plan has resulted in exceptional growth year over year. We continue to differentiate ourselves as the leader in the SharePoint ECM space, delivering a low cost and truly open platform solution for Document Capture, Imaging, and Workflow.”

KnowledgeLake has experienced 312% revenue growth since 2007. It has experienced growth and profit every year, has had zero job cuts and continues to grow with a conservative focus. KnowledgeLake added over 300 new customers in 2009, has over two million licensed users in 35 countries, and its products ship in 11 languages.

KnowledgeLake products, built entirely within Microsoft SharePoint, enable organizations of any size to standardize on SharePoint as a powerful content platform for building and deploying rich solutions that satisfy many diverse business workloads (document imaging, workflow, business process management, transactional content management, document management, records management, web content management, collaboration, portals, and more). KnowledgeLake enables its customers to maximize and extend their already sound investments in proven Microsoft technologies such as Microsoft Windows Server, Microsoft SQL Server, Microsoft SharePoint and Microsoft Office.

Global leader Fujitsu, an exclusive partner of KnowledgeLake and stakeholder in KnowledgeLake, bundles KnowledgeLake products with the entire line of Fujitsu scanners and KnowledgeLake integrates its KnowledgeLake Capture product with the Fujitsu fi-6010N iScanner. KnowledgeLake is projecting significant growth again this year as its partnerships continue to grow worldwide with Microsoft and Fujitsu.

**KnowledgeLake, Inc.** develops document imaging related products and solutions for Microsoft SharePoint. KnowledgeLake extends the ECM capabilities of SharePoint, enabling businesses to reduce shipping costs, streamline operations, and achieve regulatory compliance using familiar Microsoft products that most businesses already own and use. KnowledgeLake products and solutions are deployed globally in thousands of organizations in many different horizontal and vertical industry sectors including public sector, healthcare, financial services, transportation and more.
